Midvale Elementary School is a unique K-2 neighborhood school that boasts a diverse staff and student body. We share our communities with Lincoln Elementary School (grades 3-5). At both schools students receive instruction in both English and Spanish Dual Language Immersion settings. Midvale/Lincoln have an incredibly supportive parent community and partner with the University of Wisconsin to deliver top-notch high quality instruction. With a focus on reading and math skills, Midvale staff work hard to incorporate learning strategies that engage all students while differentiating instruction to meet all student needs. We continue to engage our community partners and families to make the connection between home and school as strong as it can be.

Equity Vision

We believe all students can be successful when empowered through relevant and meaningful teaching and learning. They can, we must!

Strengths

Strong relationships: staff-student, student-student, staff-families
Whole-child approach to learning

Progress

We drove our focus towards Mathematics, Language Acquisition, Teaming Structures, and Engaging Families Equitably. Students engaged in new levels of math instruction, while teachers integrated new curriculum with prior curriculums. Teams engaged in curriculum enhancement using GLAD strategies. Staff began to build consistent practices in CO Teams as well as the systems and structures of the Zones of Regulation work. The SBLT worked creatively to enhance Family Engagement strategies and common practices throughout the school.

Area for Growth

Midvale will continue to build upon the great work done over the past few years. We will drive our focus towards best practices in guided reading practices, continue refining our Teaming Structures, and Engaging Families Equitably

Vision Connection

Our school supports MMSD's vision that all students acquire the skills and abilities needed to be successful, including a mastery of content areas, growth mindset, self-knowledge, creativity, wellness, interpersonal skills, confidence, cultural competence, and community connection. Through these skills and abilities, our students will graduate college, career, and community ready.
